

# API COLOMIERS

## COLLEGE ET LYCEE VICTOR HUGO

Association de Parents d'élèves Indépendants

We aim for good quality education and safety at school by working in collaboration with the school's staff (requesting for substitute teachers, for help with homework, etc ).

We listen to all parents: we collect your suggestions and questions in order to best represent you at school meetings or pass on any concerns you may have.

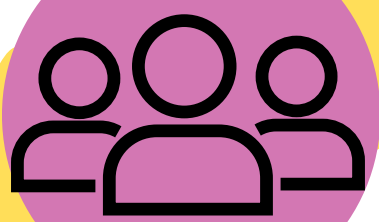

We participate in official school meetings\* on your behalf (executive committee meetings, disciplinary council, etc), and we provide you with feedback on your child's class councils.

We support families coming from abroad when needed. If you need help with schooling issues, please contact us. We speak English and more.

We work to improve children's quality of life at school (stress management, ecological initiatives, raising awareness of bullying and cyber-bullying, etc).

We can assist you during meetings with school staff members if needed or when in difficult situation (non-French speaker, etc ).

Join us ! 😊
